

The Versace Home exclusivity between contemporary décor and classical influences

In a beautiful rural setting in Irpinia is located a particular realization used as a private residence, which is a particularly concrete example of exclusivity and elegance of Versace Home collection.

The project, completed in 2011, shows the setting of the neo-classical villa, balconies and columns that symbolize stability, perfection, greatness, all surrounded by green areas and swimming pool in a coherent opposition.

The interiors are characterized by large areas of lapped hall and saloon, laid with Palace Gold materials in Gold and Almond colors and sizes 41x41 and 40x80, all supported by the characteristic Versace Home rosettes.

Last note for the bathrooms, which are laid with various shades of colors in the Versace Home Classic Collection: pink, blue and beige Luxor series in 15x15 format combined with the console and matching mirrors.
