Dubai - United Arab Emirates Price: UAE 50 AED, Bahrain 5 BHD, KSA 50 SAR, Kuwait 4 KWD, Oman 5 OMR, Qatar 50 QARSAR.

I bagni di Aquarama

I bagni di Aquarama are conceived as a complete project that combines the wall unit with the multifunction shower cabin in crystal glass and the whirlpool. The Crystal collection combines functionality and elegance to a unique element. The most outstanding characteristics of the cabin Crystal are the Quick Steam bath, HDT hydro massage nozzles, chromotherapy, music therapy, the self-supporting structure and the aired cabin. The wall unit Crystal has a particular disposal of the lights, that enhances the complete illumination of the face without shadows or reflexes. The Hydrozone bathtub Crystal in re-enforced acrylic completes the collection created in order to satisfy the needs of all those who consider the bathroom as an important part of their own homes.

My Seventy

Seventy is a project that meets new daily necessities. A special talent for simplicity and an inclination to essentialism. Soft, tranquil colours. Materials are simple yet technically advanced, gleaming and natural. Shapes are minimalistic, slightly rounded. Elegance in unobtrusive and never unconventional although it always stands out. Freedom to fulfil the most personal requests, without any shape, measurement or refinishing limitations. Seventy was created by Idea Srl, that belongs to the Idea Group. The Idea Group trademark is a well-established bathroom furniture, fittings and shower enclosures manufacturer and is synonymous with industrial quality, dynamism, research, technology, flexibility and integrated production.

Luminor

Luminor is a great achievement for Gardenia Orchidea. Its new large format allows the creation of continuous large surfaces for floors and walls. This large, perfectly rectified, flat tile is inspired in the continuity of glass or marble walls widely used in contemporary architecture. As it is rectified, each tile can be laid very close to the others, thus considerably reducing the joints and simulating one large continuous surface. The wall tile is available in beige and grey, with 4 types of finish and the possibility of choosing between 5 accents suitably designed for large dimensions. The floor tile is available in 8 colours that coordinate with the wall tiles, 2 surface finishes and 6 types of mosaic. Special applications give this product an exclusive glossy effect.

Mod, a new emotion by Galassia

The Mod collection, designed by David Dolcini, is the first furniture line produced by Galassia, imagined to cross over all collections, where the elements become the link between the different potteries and at the same time open the bathroom to further new contaminations. Elegant and rigorous, Mod's elements embellish spaces, complete and amaze, create movement and warmth. The design results from the need to close the space by opening it, to tear down barriers for a contamination that says harmony and continuity. The furniture of this collection is made of wood boards entirely oaken coated. Geometrical surfaces are finished, to respect and keep the wood's porosity, drawers are bluemotion activated, with slow closing and the same anodized aluminum handle is used for all models.
